PROFESSIONAL EXPERIENCES

2020 • Product manager – Robson app

Globalme Localization – Vancouver, BC

Achievements:

- Successfully collaborated with multiple stakeholders to redefine and optimize the workflow of speech recording projects in order to increase user retention and optimize operational processes
- Guided the development team in solving recurring technical issues while ensuring continued project deliveries by providing hands-on support to the operational team

Key tasks:

- Managed the roadmap and prioritized features and requests
- Planned and oversaw the sprint process
- Collected feedback and requests from users and team members
- Collaborated closely with cross-functional teams to define user flows and business rules
- Oversaw product development lifecycle of modules and features to ensure timely and efficient product delivery

2019-2020 • Product specialist – Robson app

Globalme Localization – Vancouver, BC

Achievements:

Drove the development of features on Globalme's data collection platform for collecting and processing AI text and speech training data:

- Drove the development and launch of a transcription web platform used to transcribe ~600 hours of audio in 5 different languages and scripts for a world-leading company in voice-enabled technologies
- Co-designed and launched a text annotation platform (Android and iOS apps) aiming to turn annotation work into easy micro-tasks accessible to the public. It was used to complete about 40,000 tasks at the end of 2019.

Key tasks:

- Co-managed backlog prioritization and sprint process with the product manager
- Collected feedback and requests from team members and users
- Collaborated closely with cross-functional teams to define user flows and business rules
- Wrote user stories with detailed acceptance criteria
- Oversaw product development lifecycle of modules and features to ensure timely and efficient product delivery
- Guided the development team daily over rounds of manual testing and feedback
- Set up training and demo of new features and modules
- Improved processes and tools

2018-
2019

● **Project coordinator (Data collection)**

Globalme Localization – Vancouver, BC

Successfully led and executed a voice data collection for a major Canadian telecommunication company

- Co-authored the strategy plan document
- Co-planned and oversaw the execution of the voice collection sessions
- Planned and executed the usability testing of a new voice enabled product
- Built and delivered a 30-page analysis recognized by both upper management and client for its clear structure and attention to detail

Coordinated the preparation and executed a data collection video session involving more than 50 children of various ages

Recruited, trained and oversaw project assistants during data collection projects
